Fast Deployment.
Guaranteed Compliance.

We're There When You Need Us!

When you choose AOTC, you get guaranteed compliance with all regulations, consistent high-quality service, and an extensive track record. If you're located in Florida, Southern Georgia or Alabama we can help your company in this capacity. We service hundreds of private and public sector clients, all strategically coordinated from our Emergency Response Center in Newberry, Florida with support offices in Jacksonville, Macon, GA, Cocoa, Tampa & Ft. Myers. We give you the speed you need to reduce the stress and impact of a spill.

Key Features:

AOTC is fully prepared and ready to deploy, so we can mobilize immediately when an emergency strikes.

- **Fast deployment – 24-hour emergency response**
- **Rapid identification and mitigation of environmental risks**
- **Guaranteed compliance**
- **Manage incidents for both private and public sector**
- **Site remediation**
- **Full-service waste management**
- **Site restoration**
- **Hazardous waste and spill cleanup and disposal**
- **Environmental consulting**
- **Environmental engineering and geology services**

Our mission is to manage emergency response for our clients through spill and waste cleanup services. In turn, we mitigate environmental and human health impacts from hazardous materials. Our 24-hour emergency response team has vast experience cleaning up fuel spills, hazardous incidents, commercial truck accidents, and industrial disasters.

The Equipment & Resources You Need

Backhoes, Bobcats, box trucks, air movers, containment booms, fractionation tanks, hand tools, pumps (different types), and vacuum trucks can all be important equipment for emergency response. AOTC is fortified with the equipment you need for a fast and complete solution. Beyond our equipment, we have substantial financial resources and a full time mechanic that ensure all our equipment is properly maintained – and that our staff is both highly proficient and motivated to do their best work.

An Experienced Response Team You Can Trust

Why do so many companies trust AOTC to handle their emergency response and disaster recovery? Because they know that we can quickly and seamlessly find the right fix for any incident that they might face. They know we have the specialized technology and equipment, supplies, and environmental service professionals to deliver with speed and sound management. No matter the type or scope of emergency that arises, AOTC has 40-hour trained and certified personnel with 100+ years of combined experience in the field. We give you the peace of mind that you have a dependable, highly rated 24-hour emergency response team at the ready.
