THE MERRITT ISLAND BASEBALL 10TH ANNUAL CLINT HURDLE GOLF TOURNAMENT

When we're not handling Environmental Remediation, doing Occupational Health & Safety Training and Compliance or, answering an Emergency Response you can usually find us doing something to support a cause...and golfing ;)

5 GOLF JOKES TOLD BY LUCARELLI

- What does a golfer like to hear from his wife? "Talk birdie to me."
- Where can you find a golfer on a Saturday night? Clubbing.
- Why do golfers hate cake? Because they might get a slice.
- Golf is a lot like taxes... you go for the green and come out in the hole.
- Golf is like marriage: If you take yourself too seriously it won't work... and both are expensive.

10TH ANNIVERSARY FATHER DAUGHTER BALL

To everyone that purchased tickets to the event tonight we thank you and hope you have an amazing time!

UPCOMING EVENTS!

**FLORIDA CHAMBER
SAFETY COUNCIL**
Making Florida Safer, Healthier and More Sustainable

2nd Annual Southeastern Leadership Conference

March 30 – April 1, 2022

Disney's Contemporary Resort in Orlando

AΩTC
YOUR EHS AND EMERGENCY RESPONSE COMPANY
EMPLOYEE-OWNED

**Visit Us At
Booth #100**

Safety, Health + Sustainability

Join the movement to create a culture of safety in Florida as we set the national example for safety, health and sustainability. The 2022 conference at Disney's Contemporary Resort in Orlando will bring together safety, health, and sustainability leaders from Florida and the Southeast. Attendees will gain valuable expertise and knowledge as well as have professional networking opportunities, understand current data and trends, hear from leaders in EHS, and learn best practices that will be brought back to leading employers to move the needle on safety, health and sustainability. The conference will include professional development opportunities (with CEUs), national keynotes including Mike Rowe of "Dirty Jobs" fame, networking and more.

AOTC NEWS

Soil Vapor Extraction: What Is It?

Soil contamination is not uncommon and often requires environmental remediation and engineering services to remedy. There are several methods of site remediation that can assist with eliminating toxins. One of the most common and effective methods is known as Soil Vapor Extraction (SVE).
